WORK EXPERIENCE

• Full Stack Developer (React.js + Springboot)

MERAAI

1 month

- Worked on developing a PWA using React Vite, Framer, and MUI.
- Worked on Spring Boot and gained an understanding of the CI/CD pipeline.
- Improved development skills and gained modern software insights.

• Developer & Code Expert (JavaScript + React.js)

TATA CONSULTANCY SERVICES(SBI)

3 years

- Worked on upgrading front-end screens from Struts and JSP to React.js.
- Conducted thorough code reviews, collaborated with the back-end team.
- Developed reusable components for improved code quality, fewer errors, and increased development efficiency.
- This resulted in improved performance, faster rendering, and better user experience.
- Upgrade led to a 30% increase in user productivity, 50% reduction in page load time which significantly improved the app's performance.
